

Copper Calorifiers

The Lycris Byrne Copper Calorifiers are manufactured in our premises at Bray, Co. Wicklow. These calorifiers are constructed to comply with BS 853 "Part 1" and may be heated directly with electric immersion heaters or indirectly using either fixed copper coil or withdrawable heated battery or a combination of all three.

- Copper Calorifier capacities available in sizes from 250 litres to 2000 litres.
- Battery heating capacity 10°C to 65°C in 1 hour with input boiler water heated to 77°C.
- Copper Coil heating capacity 10° C to 65° C in 30 minutes with input boiler water heated to 77°C.
