

Glass Lined Cylinders: Dual Coil or Twin Coil Systems

- | | |
|-----------------------------------------------------------------------------------|---------------------------------------------------------------|
| 1. Cold Feed. | 8. Cladded and insulated Glass Steel Cylinder. |
| 2. Pressurised cold water supply. | 9. Inflow from boiler to cylinder (x2). |
| 3. Pressurised hot water supply. | 10. Outflow from cylinder to boiler (x2). |
| 4. Temperature and Pressure Relief Valve (should be connected to drain facility). | 11. 3kW Immersion heaters with thermostat and energy cut-out. |
| 5. Magnesium Anode. | 12. High Temperature Expansion Vessel. |
| 6. 1/2" Fitting for Thermostat or Gauge (x2) | 11. Auto flow control and pressurising pump. |
| 7. 3/4" Male Secondary Return. | |
